

TECHNICAL DATASHEET

Silicone drum heating band up to 120 °C for 25 to 200 l steel drums

Item no. DD-KHLM-11-9867

The silicone drum heating band is strapped directly around steel drums with a spring and chain. It transfers heat straight into the drum, and several bands can be combined per drum – flat, robust and quick to fit.

Features

- Flexible silicone heating band, 115 or 180 mm wide, splash-proof (IPX4)
- Mechanical capillary thermostat on the band, adjustable 0-120 °C
- Spring-and-chain fastening, integrated power cable
- 1 to 3 bands per drum can be combined, also with a drum base heater
- Price is per band

Typical applications

- Heating oils, lubricants and resins in steel drums
- Frost protection and temperature maintenance
- Workshop, warehouse and production
