TECHNICAL DATASHEET

# Custom heating jacket for IBCs, drums and vessels

Item no. DD-KHLM-CUSTOM

We have heating jackets made exactly to your dimensions, power and temperature requirements – as IBC heaters, drum heaters or for vessels, gas cylinders, pipes and valves. Flexible silicone heating mats in special shapes, also self-adhesive, are available too.

## Features

• Industrial heating jackets for cylindrical, square and special shapes – insulated for fast heat-up and low heat loss
• Silicone heaters with wire-wound or etched-foil element: thin, flexible, resistant to moisture, oil and chemicals
• Control by digital controller, fixed bimetal limiter or PT100/NTC sensor for your control system
• Self-adhesive or mechanical fastening (straps, springs, hook-and-loop)
• Wide range of voltages, watt densities and temperatures; pipe curing jackets up to 180 °C

## Typical applications

• Gas cylinder, drum and IBC heating
• Viscosity control of fluids and resins
• Freeze protection for vessels, pipes and valves
• Battery and energy storage thermal management
• Mould and tooling heating, condensation prevention
